Join us for a one-week immersion trip to our NPH home in Honduras. Experience firsthand how NPH USA transforms the lives of children! You will meet the amazing children, staff, and volunteers of NPH and learn about their daily lives. Whether you are new to NPH, or a longtime supporter, visiting an NPH home is the best way to see your impact in action.

You will have the unique opportunity to stay at the NPH home, which will allow you to immerse yourself in NPH life and culture. While the children are in school, you will help with the daily chores around the property. After a morning of work, relax and spend time with the pequeños in the afternoons. You will also have the opportunity to meet with the leadership of the NPH home, tour NPH Honduras facilities, and hear from the children about their experience living at NPH.

About NPH Honduras

Rancho Santa Fe is a thriving community less than an hour from the nation's busy capital, Tegucigalpa. Open since 1985, Rancho Santa Fe is the second-oldest of the NPH homes. Hundreds of pequeños make their home here, while older pequeños study and live in Tegucigalpa.

Note: An NPH USA chaperone will lead and oversee all travelers throughout the duration of the week. All chaperones have been screened and are experienced volunteers.

COVID-19 Protocols

In order to protect the unvaccinated and vulnerable populations in our care, visitors are required to follow all protocols set forth by the NPH home, which include (but are not limited to) a three-day period of social distancing, mandatory vaccinations, mask-wearing, and a negative COVID-19 test. All protocols are subject to change.

If an adult visitor tests positive for COVID-19 during their visit and is unable to return home as scheduled, an NPH USA staff member will remain at the home with them to help coordinate their return. If a minor visitor tests positive for COVID during their visit and is unable to return home as scheduled, an NPH USA staff member AND the minor's guardian or chaperone must stay with the minor at the home until a negative test can be produced.
