

OUR IMPACT: HEALTH AND WELLBEING SERVICES

Health Issues in Latin America

Over half the children in the developing world are severely deprived of basic necessities, including adequate shelter, proper nutrition, safe water and quality health care.

- Almost half of the people in Latin America live in poverty which contributes to low levels of health care.
- Across Latin America 1.5 million people live with HIV/AIDS.
- Insect and water-borne diseases present large medical challenges across the region.

Country Facts

- **BOLIVIA:** Only 42% of people in rural areas are using adequate sanitation facilities.
- **DOMINICAN REPUBLIC:** 62% of children 6-24 months do not have a minimum acceptable diet.
- **EL SALVADOR:** 70% of children indicate they have been abused in their homes.
- **GUATEMALA:** Each year an estimated 67,000 children are born mentally impaired due to iodine deficiency.
- **HAITI:** 40% of the population has no access to an improved water source and 80% has no access to sanitation facilities.
- **HONDURAS:** More than 50% of children 6–24 months are anemic
- **MEXICO:** Has declared the epidemic of diabetes a national emergency - an estimated 13 million people have the disease.
- **NICARAGUA:** 40% of the population has no access to health care.
- **PERU:** The risk of major infectious diseases is very high.

Making an Impact

Nuestros Pequeños Hermanos (NPH) means “Our Little Brothers and Sisters” in Spanish. NPH USA transforms the lives of vulnerable children in Bolivia, the Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Mexico, Nicaragua, and Peru. Together, we help children overcome poverty and become productive, caring leaders in their own communities. Founded in 1954 by Father William Wasson, NPH is supporting more than 8,000 children, both inside and outside our homes, ensuring they have a safe and nurturing place to live, an education, clothing, healthcare, and a strong family support system.

In addition, NPH’s St. Damien Pediatric Hospital employs more than 500 Haitians and is the only hospital wholly dedicated to pediatric and prenatal care in Haiti, a country of 11.5 million people.

Health Care at NPH

Prior to joining our family, many of our children have never visited a doctor or dentist and are often suffering from malnutrition and/or preventable diseases. All children receive a health check upon arrival and are vaccinated as needed. If a child is ill, or has a chronic condition, the NPH medical staff ensures that he/she receives evidence-based treatment, safe cost-effective medicines, and any necessary therapy, including physical, occupational, art, speech and psychological. The staff also focuses on establishing healthy lifestyles so children can do well in school and excel as members of the NPH family. Each home emphasizes wellness programs that include nutrition, hygiene, health education, sports and recreation programs.

In addition to ensuring the good health of the children, NPH performs outreach for surrounding communities. For example, St. Damien Pediatric Hospital in Haiti treats more than 100 children per day, and the One World Surgery Center in Honduras provides outpatient services for NPH children and the rural poor as well as medical training. Overall, thousands of children inside and outside the NPH family receive quality medical care each year through our healthcare programs.

2022 NPH Health Services at a Glance

- 17,838** Medical consults
- 1,490** Vaccine doses
- 11,296** Therapies (physical, occupational, speech, psychological)
- 1,779** Dental treatments
- 454** Children and adults with chronic conditions, disabilities or special needs living at NPH

How You Can Help

NPH spends nearly \$6.5 million annually on providing the quality care necessary to keep children healthy. Your gift can help children grow into caring and productive adults.

- \$500** pays for basic vaccines for 20 children
- \$1,389** provides eye exams for 100 children
- \$2,777** pays for comprehensive care for 15 children with chronic illnesses for one year
- \$5,200** covers dental exams and X-rays for 65 children
- \$10,165** provides emergency room services for 40 patients at St. Damien

Costs listed are samples from the NPH homes. Each gift represents a contribution to the entire program of NPH USA and will be used where most needed.

NPH USA is a registered 501(c)(3) nonprofit corporation, Federal Tax ID# 65-1229309. Donations are tax deductible to the extent provided by law. All donated funds are diligently appropriated and an audited financial statement is available upon request.
