Raising Children. Supporting Families.
Transforming Lives.

SCHOOL SPONSORSHIP PROGRAM

More than half the children in the developing world are severely deprived of one or more basic necessities, including adequate shelter, proper nutrition, safe water and quality health care. Millions have never been to school. You can help us change this reality for a child in need.

School Sponsorship Program

The School Sponsorship Program connects U.S. students with an NPH supported child, living in one of our residential care homes or the surrounding community.

Whether you choose to sponsor a student as a classroom, club or whole school, you will help provide food, clothing, health care, education and a safe and loving home for one or many children in our care. Through letters and the opportunity to visit, students can form a lasting friendship and provide critical support to a child in need.

Our Mission

Nuestros Pequeños Hermanos (NPH) means "Our Little Brothers and Sisters" in Spanish. Founded in 1954 by Father William Wasson, NPH has transformed the lives of tens of thousands of the most vulnerable children and young adults, providing a nurturing family environment, education, health care, and vocational and life skills training.

NPH USA helps children in Bolivia, the Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Mexico, Nicaragua, and Peru achieve their full potential, becoming productive, caring leaders in their communities and breaking the cycle of intergenerational poverty.

NPH also fills a vital, lifesaving role with its operation of St. Damien Pediatric Hospital, the only hospital wholly dedicated to pediatric and high-risk maternity care in Haiti, and the only Haitian hospital equipped to provide pediatric oncology care.

"Since we began sponsoring several children through NPH USA, I have been blessed to witness a remarkable growth in our own students. Originally intended to merely plant the seeds of global awareness and social justice within their hearts and minds, our participation in this program has proven inspirational in watching those seeds grow and be nurtured through a genuine concern for others less fortunate. This transformation has opened not only their eyes (and hearts), but those of the entire school community, to a more comprehensive vision of our collective responsibility to care for and support those most in need."
